## “God’s Creatures” Unit

God is with you wherever you go. Joshua 1:9

I am safe with God.

It’s so hard to believe our school year is almost over. Thinking back to the very first few days makes us realize how very quickly children grow and learn. The socializing that is taking place now is so amazing to watch, we hope your child is talking about the other children, maybe wanting to play together outside the school setting.

We will continue to offer many learning opportunities through the last day of class. Using the life-cycle of butterflies is a natural way to talk about sequencing; what comes first, second and third. On our science cart, we have caterpillars that eaten, grown and now have begun to build their chrysalises....soon butterflies! There will be more patterning with frogs and bugs, exploring how insects are the same or different and as always, counting, counting, counting.

We want to thank you for the chance to spend some wonderful time with your children. Have a safe and fantastic summer.

## Books

To further your child's connection between home and school, we encourage you to find some of these books at home or the library

A Butterfly is Born

Waiting for Wings

I Need a Hug

The Icky Sticky Frog

There Was an Old Lady Who Swallowed a Fly

I Love Bugs

Jump, Frog, Jump

## Song/Fingerplay

"The Bee Hive"

Here is the bee hive (make a fist).

Where are the bees?

They're hidden inside where nobody sees.

Watch and see them come out of the hive,

One, Two, Three, Four, Five....BZZZZ! (Open fingers while counting)
